**SIGNAL SUPPLY CATALOG**

*Organizational Spare Parts for  
Telephone TP-9*

Section SIG 7 lists the authorized allowance of spare parts and major components for first and second echelon using organizations.

Section SIG 7 normally is divided into two parts, listing in Section A the authorized maintenance parts for first and second echelon organizations and in Section B the basic issue items for the complete equipment. In this pamphlet, only the authorized maintenance parts are listed since no basic issue list is being prepared.

Replenishment of organizational stocks will be accomplished by requisition of individual items on the W.D., A.G.O. Form 446, "Property Issue Slip." Equipment item numbers should be shown on all requisitions at the end of the Nomenclature and will serve as additional item identification.

**EXPENDABILITY**

Expendability of individual items will be in accordance with latest edition of Signal Supply Catalog SIG 5 which shows expendability of all items stored and issued by the Signal Corps.

**SPECIAL NOTE**

Dry batteries shown are used with the equipment but not part of it. They will not be automatically preshipped (except for new equipments) but are to be requisitioned in quantities necessary for the particular organization and/or theatre.

*Headquarters Army Service Forces 10 February 1945*

HEADQUARTERS, ARMY SERVICE FORCES.  
WASHINGTON 25, D. C., 10 FEBRUARY 1945.

This Army Service Forces Signal Supply Catalog SIG 7-TP-9, Organizational Spare Parts for TELEPHONE TP-9, has been prepared under the supervision of the Chief Signal Officer, and is published for the information and guidance of all concerned.

[SPX 461 (6 Jan 45).]
